OBJECTIVE

Computer Engineering Student with hands-on experience in Full-Stack Development, Data Analytics, and Java-based application development. Experienced in building responsive web applications, Android solutions, interactive dashboards, and database-driven systems using Java, SQL, Power BI, React, and MySQL. Looking for an opportunity to apply my technical expertise, analytical thinking, and collaborative mindset to develop innovative and scalable software solutions while growing as a technology professional.

EDUCATION

- B.Tech in Computer Engineering 2024 - 2027 | CGPA: 7.05
Cummins College of Engineering, Nagpur
- Diploma in Information Technology 2021 - 2024 | Percentage: 84%
Government Polytechnic, Washim

TECHNICAL & CORE SKILLS

- Programming Languages:** C++, Java, SQL, HTML/CSS, JavaScript
- Databases:** MySQL, PostgreSQL
- Data Analytics:** Power BI, Microsoft Excel
- Development Tools:** VS Code, Android Studio
- Version Control & Collaboration:** Git, GitHub, Jira, Plaky
- Concepts:** Object Oriented, DSA, AI/ML Fundamentals, Data Analytics

PROJECTS

Mobile Based Single Window Application for Student

Aug 2023 - Apr 2024

- Developed a centralized mobile application providing students easy access to essential academic services.
- Integrated modules including notes, previous year papers, faculty details, and company information.
- Modeled an intuitive user interface ensuring smooth navigation and enhanced overall student experience.

MoneyKauf - Cross Platform Currency Exchange Website and Android Application

Feb 2026 - Present

- Developed MoneyKauf cross-platform currency exchange website and Android application with secure real-time conversions.
- Implemented multi-country support including India, Nepal, UAE, Sri Lanka, USA with fixed transaction fee system.
- Built using React, HTML, CSS, JavaScript, MySQL, and Java, XML ensuring scalable user experience.

WalletWise AI - AI Powered Personal Finance Tracker

2026 - Present

- Programmed AI-powered personal finance tracker using React, Spring Boot, and MySQL for expense management.
- Configured machine learning models for expense prediction, spending analysis, and personalized savings recommendations.
- Built interactive dashboards with Chart.js featuring budget tracking, financial reports, and expense visualization.

Smart Health Monitoring System using Raspberry Pi

Dec 2025

- Engineered a Raspberry Pi-based health monitoring system for real-time patient vital sign tracking.
- Integrated temperature and pulse sensors for real-time vital monitoring and emergency alert generation.
- Automated digital health record management with sensor data processing and patient monitoring capabilities.

Hospital Patient Waitlist Analysis Dashboard

March 2026

- Enhanced a Power BI dashboard to analyze 25M+ hospital patient waitlist records, tracking Inpatient, Outpatient.
- Built an optimized data model using Power Query and DAX, performing data cleaning, transformation, measures.
- Created KPI cards, donut, line, and bar charts to track waitlists, waiting times, specialty performance, and monthly trends.

INTERNSHIPS & TRAINING

Full-Stack Developer Intern

Feb 2026 – Present

Aavrajan.pvt.ltd, Nagpur

- Developing and maintaining frontend and backend features for the MoneyKauf fintech platform.
- Building responsive user interfaces and implementing secure backend APIs with database integration using MySQL.
- Collaborating with the development team to improve application performance, fix bugs, and deliver new features.

Full-Stack Developer Intern [↗](#)

May 2023 - Jun 2023

Microspectra.pvt.ltd, Shegaon

- Executed the implementation of a responsive landing page to support website promotion and enhance user engagement through social media marketing.
- Created user-friendly web pages using HTML, CSS, and JavaScript.

Technical Skill Development Program [↗](#)

Jul 2025

Persistent Systems, Hinjewadi, Pune

- Completed an intensive technical training program covering web development, programming, and software engineering concepts.
- Strengthened problem-solving, communication, and professional development skills as a Kiran Scholar.

ACHIEVEMENTS

Scholarship | Persistent System

- Awarded by Persistent Foundation as Kiran Scholar for 40/1500 applicants.

Scholarship | Lila Poonawalla Foundation

- Awarded the LPF a merit-cum-need based scholarship supporting academically talented girls in higher education.
